

Ficha técnica:

SAL DEL MAR MUERTO

INCI: Maris Sal

Composition:

Magnesium Chloride: 31-35%

Potassium Chloride: 24-26%

Sodium Chloride: 4-8%

Calcium Chloride: 0.4-0.6%

Brome: 0.3-0.6%

Sulfate: 0.05-0.2%

Insoluble: 0.05-0.3%

Water of Crystallization: 34-38

Hazardous Components: None

Physical State: Crystalline or granules

Color: White or transparent

Odor: Odorless

Solubility in Water: Soluble; 60g/100ml water @ 25°C

Keep containers closed. Protect from extremes of temperature and humidity during storage. Recommended storage conditions 68-110F and 54-87% humidity
